her longing to be legally bound in a manner that would indicate the Utah statesman had promised to marry her. "Do not put it off longer. Arthur, jr., is seven and Montgomery is past four," she wrote. Her language was always tender, and the pages, when pieced together, showed signs of having been blotted by her tears.

Mrs. Adams' letters, on the contrary, were singularly brusque. She wrote notes, the longest of the five being only of three pages, widely spaced. They all began "Ex-Senator Brown," and although two of the five were not signed, one of the three signed "Annie," written from Philadelphia avidently in response to him. adelphia, evidently in response to a letter from Brown, was as follows: Ex-Senator Brown: Your appoint-

Mrs. Bradley Tells Story. Mrs. Bradley yesterday related to a

friend from Salt Lake City, who visited her in prison, the circumstances of the affair and the events leading up to it. It is the story she will tell when she takes the stand as a witness to answer in her own defense upon a charge of murder. Mrs. Brown says that she had not been pursuing ex-Senator Brown, except to secure the means of support for herself and her children, whose parentage she ascribes to him. On the contrary, he continued, she declares, to seek her company, and spent last Thanksgiving Day with her in Salt Lake City.

On that day they talked over the future. He had been allowing her \$50 a month for support of herself and her two children. She insists Brown never denied the par-ertage of the children, and that she can furnish evidence of his having introduced them as his children. She also asserts that in some books which he purchased for the eldest boy, named for him, the ex-Senator inscribed the boy's name, "Arthur

Disagreed on Thanksgiving Day.

Thanksgiving Day seems to have been a day of accounting between the two. Mrs. Bradley submitted several propositions to the ex-Senator. She wanted to go to Goldfield, Nev., where she has a sister, and engage in the stationery business, provided he would supply the capital. He objected to her going to Goldfield. He left with the promise that he would see her before coming East.

When she learned that he had started for Washington she called at his office and found that he had left a sum of money with his carapher to purchase a ticket for her to California. She took the money and purchased the ticket for Washington. She admits that at their interview Thanksgiving Day she demanded of the Senator that he be frank with her, and warned him not to deceive her.

She learned on arriving in Washington that he had deceived her and was plan-ning, unknown to her, and in spite of his denial, to marry Mrs. Adams. She con-fronted him with the evidence and demanded that he marry her. According to her story, Mrs. Bradley drew the revolver shooting. She says he had shown himself to be cowardly in her presence on previous occasions, and she believed he would yield without the necessity of her
